## MEXICO DECLINES TO ACCEPT TREATY

OBREGON SAYS IT IS IMPOSSIBLE TO SIGN AGREEMENT PRESENTED.

### REPORT FROM DEPARTMENTS

U. S. Document Neither Possible, Convenient Nor Necessary and Creates Privileges for Americans, Says President of Mexico.

Mexico City.—The signing of a treaty with the United States is "neither possible, convenient nor necessary, and is contrary to Mexican constitutional precepts in that it creates special privileges for Americans," according to that portion of President Obregon's message to Congress dealing with foreign relations, which was read in the Mexican House.

Prolonged applause from the members of the Congress and the spectators in the gallery greeted President Obregon's declaration that it was impossible to sign a treaty with the United States.

There was a demonstration also when the list of nations which had recognized Mexico was read.

"Mexico has been consolidated and regulated in all parts," says the President's message. "Federal tribunals are functioning, with independence of action, giving all necessary guarantees to foreigners and Mexican citizens; numerous economies have been put into practice, thanks to which the national debt will soon be paid. In a word, all promises are being carried out."

The President's message was a voluminous document and included a consolidated report from all the government departments. The reports submitted by the members of the cabinet were unanimously optimistic and frequently alluded to "the perfect harmony and cordiality" existing between the legislative, executive and judicial branches of the government.

The report of the Department of Interior related to gubernatorial conflicts in the states of Michoacan, Tabasco, Puebla and Morelos, in which the executive has intervened and appointed a governor, who is now functioning, with the exception of Morelos, which is declared to be "still outside constitutional order."

Up to July 30, 123,894 Mexicans had been repatriated, at a federal cost of more than 3,000,000 pesos, and more than 42,000 pesos were spent by the government in aiding the unemployed in the oil fields.

Secretary of War Estrada reported a 30,000 reduction in the strength of the army, with a decrease in the budget of his department of more than 26,000,000 pesos since President Obregon assumed power.

"Pacification of the country has been achieved with great success," General Estrada said, "and operations have been carried out with great expedition and with invariable success, culminating in the extermination or surrender of all groups which were in arms."

The uprisings, in his opinion, were not due to popular desire, but represented personal ambitions. He praised the army, which throughout its reorganization, he declared, had maintained "the best of discipline."

### AUTHORITY GRANTED FOR CUT IN RATE ON EXPORT GRAIN

Washington.—Authority was granted by the Interstate Commerce Commission to Western and Southwestern railroads to reduce 54 cents a hundred pounds the rates on grain and grain products for export from Missouri and Mississippi River points and on grain from the territory between the rivers and from Illinois to gulf ports, Mobile to Galveston, inclusive.

### Rich Gold Strike in Alaska.

Anchorage, Alaska.—Receding tides in the Gulf of Alaska in Turnagain Arm have revealed a five-foot vein of gold ore quartz, assaying about \$100 to the ton, according to reports received here. Rocks projecting over the sea are said to have disclosed several other rich veins. These discoveries supplement recent strikes of highly valuable quartz near Anchorage.

## ASSAILS AGITATORS AGAINST U. S. LAWS

ENFORCEMENT PROBLEM IS DISCUSSED BY DAUGHTERY BEFORE BAR ASSOCIATION.

### CRIMES SHOW NEED OF LAWS

U. S. Attorney General, in Address, Says Supremacy of the Law Is Menaced by Many False Doctrines.

Cincinnati, Ohio.—Theories of a political philosophy now "advanced by those who either violate law or sympathize with the law violators" in industrial conflicts, agitation to upset American form of government and against enforcement of prohibition statutes are the greatest forces at work in the United States to undermine respect for law, Attorney General Daugherty declared in an address before the American Bar Association.

Arguing equally against sentiment that regards a convicted I. W. W. as a "hero of conscience" and "political prisoner," that holds a bootlegger an exponent of "personal liberty" and sets up the slogan of "human rights against property rights" in employment disputes, Daugherty asserted fallacy and danger lay in all.

The Attorney General, in his address, which was the first since assuming office, suggested a method of informing public opinion by semi-governmental means to obviate industrial conflicts, but advocated complete disregard for the theories advanced in the other two fields. He declared the demand for "personal liberty" in prohibition enforcement had been "advanced in the past by every champion of lawlessness who has sought excuse for unlawful conduct."

"Supremacy of the law is not undermined by the ordinary criminal who commits murder, robbery or larceny," Daugherty said.

"On the contrary, every occurrence of crimes of this sort tends to impress upon society the profound importance of law and its vigorous enforcement. The supremacy of the law is and has been challenged mainly by that class of legislation where there exists a difference of opinion as to governmental policy in enacting the legislation in question. At the present time among the forces undermining respect for law are the doctrine of so-called political offenses, erroneous conceptions of personal liberty and false doctrines as to the rights of individuals and minorities."

Resentment of large corporations, of "persons and capital" against "interference of laws regulating them," Daugherty said, involved a "mistaken attitude" for "law and order is the shield of business and its only security."

The Attorney General, who recently made a study of the cases of Eugene V. Debs and others serving sentences for violation of war-time laws, discussed at length the question of "political offenses."

## JUDGE LANDIS SCORED BY BAR ASSOCIATION

ACCUSED DEFENDED BY FORMER SENATOR J. HAM. LEWIS.

Convention Expresses Its "Unqualified Condemnation" of Jurist Who Took Baseball Job at \$42,500 a Year.

Cincinnati, Ohio.—The action of Federal Judge J. M. Landis, of Chicago, national commissioner of baseball, in accepting "private employment" while active on the federal bench, was declared to meet with the "unqualified condemnation" of the American Bar Association, in a resolution passed at its convention.

The resolution was adopted after a stormy debate. In which former Senator James Hamilton Lewis counseled against hasty action and moved that the matter be referred to a committee for investigation. He declared that Judge Landis should be accorded a proper hearing before being condemned.

The resolution was drawn by the Executive Committee of the association, was presented by Hampton L. Carson of Philadelphia, former president of the organization. The resolution reads as follows:

"Resolved, That the conduct of Judge J. M. Landis in engaging in private employment and accepting private emolument while holding the position of a federal judge and receiving a salary from the federal government meets with our unqualified condemnation as conduct unworthy of the office of judge, derogatory to the dignity of the bench and undermining public confidence in the independence of the judiciary."

"In upholding the honor of the profession of the law," Carson said in presenting the resolution, "of what is to prescribe canons of ethics if we know that the man on whom the judicial emblems rests has spoiled that emblem by yielding to temptation of avarice and private gain?"

"Here is a federal judge who receives \$7,500 a year yielding to the solicitation of commercial interest, sapping his judicial strength by taking a \$42,500 a year from baseball players."

"It is simply dragging the emblems into the mire. It may be that impeachment cannot reach him, but one thing cannot escape us. That is that from every judicial circuit and every bar in the country rises the withering scorn of protest against the man who would stain their honor."

"To ignore this thing would have been to leave this convention hanging our heads in shame at the execrable conduct of this judge."

## MAN FOUND SLAIN IN FIELD, \$3,000 MISSING

Edward Barnes, Cape Girardeau Teamster, Shot and Killed in Rear of His Home.

## TROOPS ARRIVE IN W. VA., TO END FIGHT

SOLDIERS SECRETLY PLACED IN HALF A DOZEN POSITIONS AROUND BATTLE AREA.

### MEN EXPECTED TO DISPERSE

State Reports Continued Shooting at "Front," But 2,100 Regulars Arrive on Scene of Disorders.

Madison, W. Va.—The first contingent of federal troops reached here. With the exception of a guard, the men remained in the special train that brought them.

Shortly after the arrival of the soldiers, several men were seen to start in the direction of Clither, it was believed they were sent here by armed bands for the purpose of reporting the arrival of troops.

Madison is 12 miles from the Clither-Sharps-Blair district.

Washington.—A report received at the War Department from Brig. Gen. Bandholtz in West Virginia said: "Airplane reconnaissance upon return reported everything quiet throughout the disturbed area during reconnoissance. Other reports indicate that there was at least the usual amount of fighting."

Charleston, W. Va.—The miners are ready to obey the orders of the federal troops just as soon as they arrive, said William Petty, vice-president of District No. 17, United Mine Workers of America, at union headquarters here.

He said he received this information from leaders of the armed forces on the Boone-Logan border by telephone. "The leaders of the miners have assured me by telephone that not a single shot will be fired on federal troops coming up from the rear of the miners' lines," Petty added. "They said they would submit without objection to rules and regulations that might be laid down by the federal authorities."

Federal troops are in West Virginia, ready to put down the disorders that have been disturbing the peace of the state for some time. The first troop train arrived at St. Albans from Ohio and was followed by other trains bringing infantrymen and equipment from the 5th corps area of the Middle West. Troops from Camp Dix, who left there on orders from Washington, have arrived.

The first contingent of the soldiers was met at St. Albans by Col. Stanley H. Ford, War Department general staff, who conveyed orders to the commander of the troops where to place his men. St. Albans is about 25 miles from the affected area in Boone and Logan counties.

### 109 BUILDERS INDICTED UNDER ANTI-TRUST LAWS

New York and Chicago Men Accused Under Sherman Act—28 Chicago Firms Made Defendants.

New York.—Eighty-two individuals and corporations, said to be large building trade concerns, furnishing supplies and materials for New York City, have been indicted by the Federal grand jury according to an announcement made by Col. William Hayward, United States attorney. The indictment is sealed and the names of the thirty corporations and thirty-two individuals will not be known until Tuesday. The indictment charges violation of the Sherman anti-trust law.

The indictments were obtained as a result of a promise made early in the summer by Col. Hayward to Samuel Untermyer, senior counsel to the Lockwood Committee, that he, Hayward, would carry on a vigorous and early prosecution of twenty nation-wide combinations in the building trade, said to be capitalized at approximately \$2,000,000.

"This indictment is only one of a great many others which will follow in rapid succession," said Col. Hayward. Col. Hayward declined to give any intimation of the line of business in which the indicted men and corporations were engaged.

It is known that the Lockwood Committee turned over to Col. Hayward the testimony and exhibits in their proceedings involving the National Erectors' Association, the Iron Erectors' League, the Association of Steel Fabricators, the Paint Manufacturers Association, the so-called lined oil "trust," the Tile, Grate and Mantel Association, several plate glass manufacturers' organizations, hardware manufacturers, plumbing supply manufacturers and jobbers, range manufacturers, roofing material manufacturers and several others.

## CAR DRIVING HARD ON FEET

Use of Accelerator Causes "Short Circuit" of Pedal Nerves or "Motor Foot." It is Said.

When car owners return from their summer vacation many of them return limping. A new summer epidemic is at large in the ranks of vacationists.

The new ailment has been given the popular name of "motor foot." In the language of surgical chiropody it is indexed and classified under the name of "metatarsal displacement."

Continuous motoring is the cause of the ailment. It is a right foot trouble caused by the continuous strain occasioned by long motor trips when the driver keeps his foot in the strained position required by the use of car accelerator.

This position causes a displacement of the metatarsal bones which in turn causes them, in motor language, to "short" the nerves of that part of the foot. This in turn is the answer for the pain that accompanies the displacement of possessing "motor foot."

"Motor foot" not only makes walking painful, but practically eliminates golf, tennis or any of the other popular forms of active recreation.

## WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.
